Indigrow Triple Plus

TO BE USED ONLY WHERE THERE IS A RECOGNISED NEED.
DO NOT EXCEED THE APPROPRIATE APPLICATION RATES.

EU FERTILISER

CONTENTS:	w/w
SULPHUR as Sulphur Trioxide (SO_3)	28.62%
MANGANESE as Elemental Manganese (Mn)	10.73%
ZINC as Elemental Zinc (Zn)	10.73%
COPPER as Elemental Copper (Cu)	3.54%
BORON as Elemental Boron (B)	1.43%

Application Rates

Use 0.5 - 1.0 kg/ha. Apply in not less than 200 l/ha.

Instructions for Storage and Use

A combined formulation for foliar application to manganese, zinc, copper and boron deficient crops. The use of special additives improve tank mix compatibility and leaf penetration, so optimising the availability, uptake and absorption of the nutrients.

Directions for Use

Spray equipment should be clean and free of residues from previous use. Maintain continuous agitation whilst mixing and spraying. Do not allow mixture to stand idle at any time. Shake container thoroughly before adding required dose to water volume.

Compatibility

This product is chemically compatible for use with most approved agrochemicals. Contact your advisor for data, recommendations and advice.

Timing

Apply during periods of active growth once leaf cover is sufficient to absorb spray. Usually after the 3 leaf stage. Repeat applications as necessary if symptoms persist or re-appear. Do NOT apply to crops under severe stress.
